June 11, 2009

VITA Staff,

Yesterday, the Information Technology Investment Board (ITIB) named Leonard M. "Len" Pomata Interim CIO of the Commonwealth effective immediately.

Lem Stewart, who has done a tremendous job for the Commonwealth in a difficult and challenging position, will serve as a consultant to the ITIB through his contract at the end of this calendar year.

Len, who recently was named Secretary of Technology by Governor Tim Kaine, has served as an active member of the ITIB since its inception in 2003. He brings 38 years of experience in engineering and computer system development for both the public and private sectors. Since 2007, he has served as an IT consultant, providing strategic consulting to facilitate market entry and expansion for business interests. He also served on the George Mason University Board of Visitors and the GMU Foundation.

Please know that VITA and the IT Infrastructure Partnership have the full support of the ITIB, and that we appreciate your continued efforts on behalf of the Commonwealth.

As we look toward completing transformation and moving into this new phase of delivering IT services to the Commonwealth, please join me in welcoming Len Pomata to the CIO role.

Sincerely,

A handwritten signature in cursive script, appearing to read 'James F. McGuirk, II'.

James F. McGuirk, II, Chairman  
Information Technology Investment Board
