

I ~~██████████~~ met Wade Compton
through legal aid ser. He was appointed
to me for custody of my child
~~██████████~~. We met on a
few different times at the court
house then he said it would be
~~easy~~ easier for him & me if ~~we~~
we met at my house to talk over
custody and he would help me get
my divorce. At that time I gave
him my house address because I trusted
him, because he was my attorney. An
one time at the court house Black Am
took me in to one of the witness
rooms to talk over my case before
court. Mr. Compton then started telling
me how nice I looked that day
and that ~~I didn't need a man~~
like ~~Mr. ██████████~~ to ~~if~~ didn't
~~deserve~~ deserved a woman like me. I started
feeling very uncomfortable with him.
then he wanted to see me out side of
court and he would make sure I
got ~~██████████~~ not to worry, he gave
me a special phone number and
told me he was married and not
to let anyone have it, and before
we started out the door he ask
for a kiss, I did kiss him back

Mr Compton come down to my trailer in Bishop we had said a time to meet on the phone, but I was afraid to meet him, so when he pulled in I got my little girl and hid and wouldn't answer the door. He came back a second time and ~~wasn't~~ wasn't there and it took me off guard, but I looked the front door and hid in the bedroom until his car left.

The last ~~time~~ time was in a witness ~~room~~ room in Circuit Court. Mr Compton said he really needed to talk to me about my case we went into a ~~room~~ room it had a window looking out at Jayvee. Mr Compton ~~put~~ put his arms around me laid me ~~out~~ out on to a table he said he hated he missed seeing me at the trailer who could have ~~skewer~~ skewer me ~~was~~ what a real man was like then I started telling him he better watch people could see through the window and he rubbed his hand down my breast and said "Um, he couldn't wait" That was the last time I would allow

myself to be alone with Mr. Compton
 he scared me, he made me feel
 dirty and I was so afraid to
 tell anyone where he was a lawyer
 and I was just a woman from
 a background of domestic abuse, ever
 since this is happened I don't trust
 men expectly lawyers and or court
 service because of all this my child
 is gone and I'm afraid to talk to
 another lawyer about my case.

Mr. Compton told me I had to
 leave my home in Bassett VA
 before we came back to court
 or the judge would take her.
 that's when I got the trailer
 and then he started his
 stuff.
