

Mr. Larry Harley,

4-01-2006

This is a partial statement. You had left me a message saying to briefly describe the relationship of Mr. Wade Compton and myself, as well as one incident that involved the sexual harassment that I endured during the 2 years of my knowing him. Mr. Wade Compton was assigned to me by Southwest Virginia Legal Aid Society to represent my divorce and custody case ~~beginning~~ beginning on March 31, 2004 or soon thereafter. One particular occurrence by Wade Compton was inside the Scott County Court house in a room past the Circuit Court Judge's Chamber. The window faces the biggest part of the parking lot and I was asked by Wade to go part out

4-01-2006

the car that I was driving and was awarded by the Judge. Wade said it was to be able for him to tell on further cases whether or not I had arrived to the court but when I got to the window the car was not what was on his mind. He grabbed my hips from behind me, pulled me toward him and started to rub himself (the front) on my behind. As I was trying to get free he was pulling my dress upward and putting his hands under my panties trying to rub my ~~gent~~ genital area. He did succeed before I could get loose from him. This is only one of the times I withstood his advances.
